AGENTIC AI DOCUMENT FORENSICS INVESTIGATION REPORT

Contextual Document Authenticity & Tamper Anomaly Analysis System

Investigation ID:	INV-FDB52A80	**Generated:**	2026-11-10 17:12:42 UTC
System Finding:	**Likely Authentic / Low Anomaly**	**Decision Status:**	**Reviewed: Verified Authentic**

LEGAL & FORENSIC ADVISORY: *This report compiles automated findings from deep learning and contextual language models (MobileNetV2, YOLOv8, Qwen-2.5, Sentence-BERT). Detected anomalies, visual bounding boxes, and cross-document inconsistencies highlight areas warranting closer examination.* ***Model predictions do not constitute conclusive proof of fraud.*** *Final determination remains strictly under authorized human investigator control.*

1. Executive Summary

A total of **1** document(s) and **1** page(s) were examined. The visual forensics pipeline identified **0** potentially manipulated region(s). The contextual agent evaluated key entities, and cross-document comparison detected **0** potential contradiction(s). Overall, **1** evidence items were mapped.

2. Document Overview & Visual Forensics

Document Name	Pages	Classification	Tamper Score	Suspicious Regions
DOC-226CAC57_sample_authentic_salary_slip.pdf	1	**Likely Authentic**	0.7469	0

3. Contextual and Entity Findings

Extracted Entities: 0 identified.

4. Cross-Document Comparisons & Contradictions

5. Mapped Evidence Registry

ID	Document & Page	Type	Conf.	Source Text / Details
EVIDENCE_1	sample_authentic_salary_slip.pdf (p.1)	Document-level classification	N/A	MobileNetV2 classification assigned a score of 0.7469 (decision threshold:

6. Investigator Review & Final Human Sign-off

STATUS: OFFICIALLY ADJUDICATED & SIGNED — Formal human forensic review completed and recorded in the audit log.

Investigator Name:	**Mano Ranjan G**	**Review Date:**	**2026-11-10 17:16 UTC**
Final Disposition:	**[X] Verified Authentic** [ ] Confirmed Tampered [ ] Inconclusive	**Signature:**	Mano Ranjan G DIGITALLY CERTIFIED • 57BA2327E6 • VERIFIED
Investigator Notes:	**Case INV-FDB52A80 verified authentic. Both MobileNetV2 classification and YOLO localized tampering detector found 0 suspicious regions. Cross-document relational comparisons match without contradiction. Document approved.**
