AGENTIC AI DOCUMENT FORENSICS INVESTIGATION REPORT

Contextual Document Authenticity & Tamper Anomaly Analysis System

Investigation ID:	INV-993489AA	**Generated:**	2026-11-08 16:37:57 UTC
System Finding:	**Potentially Tampered / High Risk**	**Decision Status:**	**Reviewed: Confirmed Tampered**

LEGAL & FORENSIC ADVISORY: *This report compiles automated findings from deep learning and contextual language models (MobileNetV2, YOLOv8, Qwen-2.5, Sentence-BERT). Detected anomalies, visual bounding boxes, and cross-document inconsistencies highlight areas warranting closer examination.* ***Model predictions do not constitute conclusive proof of fraud.*** *Final determination remains strictly under authorized human investigator control.*

1. Executive Summary

A total of **2** document(s) and **2** page(s) were examined. The visual forensics pipeline identified **2** potentially manipulated region(s). The contextual agent evaluated key entities, and cross-document comparison detected **1** potential contradiction(s). Overall, **4** evidence items were mapped.

2. Document Overview & Visual Forensics

Document Name	Pages	Classification	Tamper Score	Suspicious Regions
DOC-3BE06907_sample_salary_slip.pdf	1	**Potentially Tampered**	0.9500	1
DOC-F029A077_sample_bank_statement.pdf	1	**Potentially Tampered**	0.9500	1

3. Contextual and Entity Findings

Extracted Entities: 8 identified.

4. Cross-Document Comparisons & Contradictions

Doc A	Doc B	Semantic Sim.	Findings / Status
DOC-3BE06907_sample_salary_slip.pdf	DOC-F029A077_sample_bank_statement.pdf	0.7853	Strongly Related Document Pair

Identified Value Discrepancies:

• Discrepancy in Salary / Credit Amount: 'DOC-3BE06907_sample_salary_slip.pdf' reports 'INR 50,000', while 'DOC-F029A077_sample_bank_statement.pdf' reports 'INR 35,000' (variance: 15,000.00).

5. Mapped Evidence Registry
